14 May 1948

MEMORANDUM TO: Files, BIR

SUBJECT: Estimates on flow of material into IAC Agencies

1. Each of the IAC agencies were contacted for the purpose
of determining the number of individuals this Register would have
to process into its files.

a. Air Force estimates that they will process 550
documents per day and each document will bear the
name of the author which will make a total of
157,500 individuals per year.

b. The Department of the Army indicated that they will
process 20,000 in the coming year.

c. Navy estimates 5,500 individuals per year.

d. State Department estimates that they will process
5,000 new individuals per month and will add
information on 30,000 old individuals per month.

e. Reference Center Library estimates a flow of
1,000 documents per day and BIR estimates that
80 per cent of those documents will contain
██ 25X1B
per document. This would make a total of 600,000
████████████████ per year 17,000 of which would be over 25X1B
and above those processed by the other IAC Agencies.

Information received from those Agencies other than
the Department of State will concern ████████████████ 25X1B
████████████████
